

Why We Make The HIPPOmate Lead

Preface

Many cities have passed legislation that require dogs to be on leash in public areas; Having the dog wear a leash is a way of protecting the dog and other persons on the street. Not to mention that in some areas walking the dog without a leash is against the law.

To dog with love & dominating

What a important thing and a reason for wearing the dog leash that we must do something to take care of the dog, not just a empty talk only , and of course, we and other people on the street have a concern in the thing is out of going to love dog, protect dog !!

We always speak to the dog's faults and dog's mistakes when walking on the street, but the truth we found that the dog owners who seem to take just about the responsibility.

Besides, we should stop to impute all faults to dogs, if we exact understand what's happened,

There is in time for making a self-examination and no more complaints to dogs,

No doubt the dogs are living in society of human. They have no choice to get with all norm of society and to trust people , when walking dog, in the event of troubles and there're some from owner's bad leashing, then we must clear and redress the miscarriage of justice, .

Dog can not talk, but takes the action directly by instinct, we have to see the inside of dog thinking, so that we have our ability to dominate dog and take care of them.

How about to get a right leash for walking dog on the street and begin building up the good trust between your dog and you right now !!

You can enjoy in walking dog on the premise that must equip with

(A.) Absolutely dominate confidence in yourself as a leader.

When walking the dog in crowded places they can get easily confused and lost or they could be involved in car accidents. Also, crowded places might cause them distress which might result in attacking a person. If the owners can set the rules for dog and absolute dominate confidence in themselves as a leader, and most dogs easily react to obey and feel at ease.

(B.) Get the right leash

Dog leash, preventing dogs from frightening or biting people or other animals, defecating and urinating in inappropriate places, endangering traffic, digging up lawns, causing other damage, getting lost, and getting away from owners.

Therefore, we need to have the self-confident thought first, and to know the leash is not viewed as a punishment for a dog , meanwhile, having a dog leash with perfect size for keeping a good clearance and leashing by a clear method of communication to ensure control that is the key factor in walking dog on the street.

Walking exercises the whole you and your dog, not only uplifts the spirit but also breathe out the poisons of tension , stress and worry. Go ahead, when you get ready !!

USER: Mr. CHIA-HONG WU

OCCUPATION: ELECTRONICS ENGINEER

PLACE: TAI CHUNG CITY ,TAIWAN

DOG'S NAME/ AGE: COHIBA /6

The key that I do worry about the weaknesses of 2 old retracting type leashes were tugged to break by my Cohiba, and the inside gear parts be run down that's the cause we found !!

The HIPPOmate smart R.P. leash is more stable of changing to long or short , no doubt are comparing more durable with the retracting type leash ,.

As the cost, HIPPOmate smart R.P. leash is with a price of nice to our profit, we love it !!

USER: Ms.ANGELA HWANG

VOCATION: TEACHER

PLACE: NEW TAIPEI CITY TAIWAN

DOG'S NAME/ AGE: PAO /5

My dog, PaoPao, is full of energy and always excited about going for a walk. However , PaoPao tends to pull each time when I walk him. I tried using a shorter leash to keep him by my side. The traditional leash I used was still too long for walking PaoPao, so I strapped it around my wrist to keep PaoPao close to me and to gain a better control over him. It didnt work that well because of PaoPao's curiosity to explore the environment where we walked that he couldn't stop pulling me and I could had twisted my wrist many times.

By chance, I came across smart R.P. leash by HIPPOmate. I am just loving this product because it provides me with a better control of PaoPao as a short leash can do, but also has the ability to adjust its length as an auto retracting leash to satisfy PaoPao's needs in exploring the environment and my safety when we go for a walk now. The material of smart R.P. leash by HIPPOmate is very durable and with a good price, I truly think it is much a better leash compared to all the traditional and auto retracting leashes I had used.

Now, I and PaoPao are enjoying the walk with ease and more fun time together.
